In response to Item 1 in your Request for Additional Information dated September 27, 2014: The totals on the Pre-primary report are correct as originally filed on August 14, 2014. However, upon review of the July Quarterly report previously filed, it was determined that report had that incorrect and incomplete information. The prior treasurer did not provide is with a correct copy of the Fecfile dataset, which caused a delay in filing the necessary amendment to that prior report. The FEC electronic filing office has assisted with creating a usable file for amendment and upload. That prior report amendment is now filed with the correct ending totals for that prior period.
